Education

05/2023 – Present Ahmedabad, India	**B-Tech** **LJ Institute of Engineering and Technology** Doing Bachelors in Computer Science and Engineering • SPI-8.9/10.0 • **Coursework:** Data Structures And Algorithms, Database Management System, Advanced Calculus

TECHNICAL SKILLS

Languages: Python, JavaScript, Java,SQL
Web Development: HTML5, CSS3, React.js, Node.js,
Django, FastAPI, REST APIs
Libraries & Frameworks: Tailwind CSS,
NumPy,Pandas,Scikit-learn, Matplotlib, Seaborn
Databases: SQLite, MySQL, PostgreSQL, MongoDB
Tools & Platforms: Git, GitHub,VS Code, Supabase

Projects

Tomato – Zomato Clone App
Developed a food delivery application replicating Zomato's core features with search, cart, and payment integration.
Key Features:
• Implemented **search suggestions** and **search history** using data structures (LinkedList, HashMap).
• Integrated **cart management** with quantity selection, total price calculation, and database storage per user.
• Built **secure payment module** with card validation and order tracking.
• Designed **responsive Java Swing UI** and connected with MySQL for restaurant menus & orders.

learno – AI Learning Platform with Flashcards
Created an EdTech platform for interactive learning, quizzes, and spaced-repetition flashcards.
Key Features:
• Developed **flashcard system** with spaced repetition algorithm for efficient revision.
• Integrated **course management** with lessons, flashcards band quizzes.
• Built **Django backend** with PostgreSQL and AI-based learning recommendations.
• Designed **responsive UI** with HTML5 OR CSS and real-time progress tracking.

ResumeXpert – ML Resume Scoring & Generation Tool
Built an intelligent platform to score, filter, and generate resumes based on GitHub, LinkedIn, and LeetCode profiles.
Key Features:
• Developed **ML-based scoring system** adapting to candidate activity and industry needs.
• Integrated **resume generator** that auto-populates sections from GitHub/LeetCode data.
• Built **company dashboard** for job posting, bulk resume uploads, and filtering based on requirements.
• Implemented **Django REST API** backend with JWT authentication and React.js frontend.

EXTRA ACTIVITIES AND CERTIFICATES

- Introduction to HTML,CSS & JAVASCRIPT ⌕
- ODOO HACKATHON
